Pink Digs for a Cure is committed to three objectives: Teaching our student-athletes the greater values of community contribution through the sport of volleyball, advancing the WHC Emergency Scholarship Fund for qualifying cancer patients, and partnering with our community businesses, schools, citizens, and families, to assist local cancer patients undergoing treatment. Molly Malarsie, MMS Head Volleyball Coach: "We are thrilled to be a part of Pink Digs, especially at the middle school level. It is really important to give students the opportunity to get involved in something bigger than themselves. The earlier we grab hold of students and teach them to give back to the community, support other causes, and be compassionate towards others the better."

We are inviting our communities court side to these incredibly uplifting volleyball matches. Local breast cancer survivors will be honored at center court, as part of our Team Roster All-Stars. Pink Gift Shop for apparel, gifts, gear will be available for purchase at Pink Digs.
